TO WHOM IT MAY CONCERN

**RE: KANKIZA MUTANGILA MABUGO**

I am writing to recommend Kankiza Mutangila Mabugo to you so as she can be considered for her needs and placement.

I have known Kankiza for two the years of 2021-2023, when she studied at our school (Barbro Johansson Girls' Secondary School) as a science student. At the school I practice as a School Counsellor, hence stand as a guide to ethics and professionalism at the institution.

Kankiza is a girl with positive self identity, she is visionary and goal oriented. In the extra curriculum, she is vibrant and positively related to peers. She is a multitasker, easy to engage in multicultural environment since she faired excellently at the school as it recruits students from all over the country.

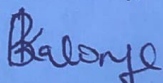

As a leader she is very talented, at a school she served as an assistant Education Minister, which deals with responding to students' academic needs and supporting them with academic challenges. Kankiza played her role very well and left a memorable mark at a school.

In behaviour, Kankiza is very good at interpersonal relationships, empathic and vigilant. She co works with her colleagues in the class in a very functioning mode. With teachers, she is very respectful, understanding and responsive.

If assisted, I guarantee you, Kankiza will add value and strengthen her abilities in an optimistic and promising future. She had done it before, she does it now, and will definitely do it with the proper support.

Kindly offer the necessary support.

Yours sincerely,

Bupe Mwabenga

Barbro Johansson School Counsellor

TO WHOM IT MAY CONCERN,

**RE: KANKIZA MUTANGILA MABUGO**

My names are Luckyman Fredrick Mboya, a teacher of Chemistry Subject at Babro Johnasson Model Girls Secondary School. I here by write this letter to recommend Kankiza Mutangila Mabugo.

Kankiza was my Science Student at the school, where she studied a combination known as PCM (Physics, Chemistry, Mathematics), in the year 2021 to 2023, in addition to General Studies as a compulsory subject to all students; science and non-science students.

In class, she was very active and responsible, goal oriented, creative and an achiever. She would set her goals high and achieve them timely. On her graduation day, Kankiza was awarded certificates as a best student in Physics and General Studies.

In her National Examinations Results, She scored a Division one of point 8, with C in Physics, B in Chemistry, C in Mathematics and C in General Studies. It was due to her intelligence plus her hard work that she was able to achieve a Division One.

Kankiza can be trusted, can be recommendable and is reliable. I highly recommend her to you, and you will have added value to the world for offering her the possible assistance she needs.

Yours sincerely,

Lucyman Fredirck Mboya

Barbro Johansson School Chemistry teacher.
