Hobbies

- Learning languages of which lately i have been focusing to learn Chinese.
- Photography
- Research and analyzing trending aspects in engineering world.
- Sports, football in particular.

Work Experience

Honestly speaking I have only worked at my father's workshop for some time. The workshop consists of Leth machines, drilling machines and welding machines. I have been working as a helper helping the welders and the operators but in the end of the got experience and i could now use a drilling machine and the shielded Arc welder.
