June 6, 2023

Dear Sir/Madam,

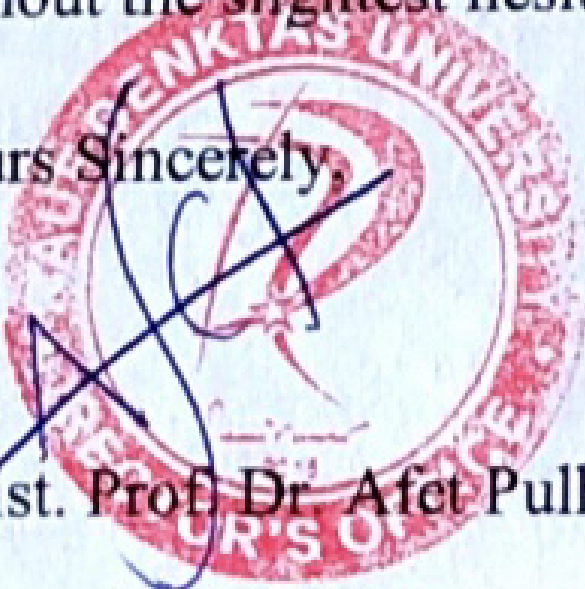

I am proudly writing this letter on behalf of Mr. Abdulrahman Anka Sambo who is a graduate student of our Department of International Relations at Rauf Denktaş University. He graduated in the Fall Semester of 2023. I have known Abdulrahman in my capacity as a teacher of the Comparative Politics course (INTR 305) and Human Rights course (INTR 306). He has been an outstanding student with rewarding performance for the last four years. As being one of the most successful students, he has consecutively developed his research skills and ability, critical thinking, and judgment as well as his intellectual level of knowledge in international relations and international law. I am honored to mention that he is among the top five students in the class.

Abdulrahman has exhibited an outstanding performance in the international relations courses. He is a student with great effort, endurance, and diligence. He has a good level of English and self-confidence in initiating different aspects of subject matters and synthesizing them in his projects. Abdulrahman as being an achievement-oriented person and his ability in critical thinking and clear statement of ideas are always noticeable and highly appreciated.

Abdulrahman is rich with plenty of personal qualities, which I believe will make him a very successful student at your institution. In my opinion, Mr. Abdulrahman Anka Sambo is a very kind, responsible, and successful student. I highly recommend him to your degree program and without the slightest hesitation; I know he will do his utmost to prove his success to you.

Yours Sincerely,

Assist. Prof. Dr. Afet Pulhan
