Admissions Committee/ Scholarship Selection Committee,

**RE: Recommendation Letter for Ms. Annmagdalena Lucas Msoma.**

I am writing to recommend Annmagdalena Lucas Msoma in pursuit of a Master's degree at your esteemed institution in China.

Annmagdalena has been an exceptional student in our Bachelor of Science program in Production and Operations Management. Throughout her academic journey, she has consistently demonstrated a keen intellect, outstanding work ethic, and a passion for her chosen field of study. Her academic achievements, coupled with her involvement in leadership, volunteering, active participation in various activities involving seminars and trainings with great teamwork skills showcase a well-rounded individual with a strong commitment to success.

In addition to her academic accomplishments, Annmagdalena possesses excellent communication skills and collaborates effectively with peers and faculty. She has shown leadership potential through her involvement in the student government where she served as the faculty Vice President but also currently she serves as a member of the board of Higher Education for Economic Transformation (HEET) that aims to strengthen the learning environment and labor market alignment of priority programs, while enhancing the delivery of knowledge to produce graduates who meet the demand and standard of the current and future labor market in Tanzania. Such qualities, combined with their determination and diligence, make Annmagdalena an ideal candidate for your Master's program.

I am confident that Annmagdalena Lucas will thrive in your program and contribute positively to the academic community. Her passion for quality management, process optimization and supply chain management align seamlessly with the focus of your Master's program, and I am excited about the prospect of seeing her continued growth and success.

If you require any further information, please do not hesitate to contact me. I wholeheartedly endorse Annmagdalena, and I am certain she will excel in her pursuit of higher education in China.

Sincerely,

Aloyce Gervas, Ph. D.  
Lecturer,  
Assistant to the Vice Chancellor
