

## ***Recommendation letter***

To whom this may concern,

I have known Mike Pandeni Hango for the past two years, having served as his Oil Development Geology professor and Supervisor in Xi'an Shiyou University. I believe Mike Pandeni Hango to be an excellent addition to school/institution.

While a student here at Xi'an Shiyou University, Mike Pandeni Hango has always challenged himself academically. He is an active participant in class discussions and grasps materials quickly. He has superb written and verbal skills that are a pleasure for any professor to encounter. He's got great class etiquette where he will silence the classmates that are making a noise and would participate in class activities without a hassle.

Mike Pandeni Hango excels in extracurricular activities, he has served in university functions, gatherings and meetings for the past two years, he's also the university photographer responsible for shooting all the events hosted by the university. His ability to participate in leadership roles in the activities also reflect his organizational skills and leadership abilities.

In sum, Mike Pandeni hango would bring so much to your school/institution, both inside and outside the classroom. He has my highest recommendation for admission to your program.

Professor Cai Wenbin
